

SKILLS

Languages	HTML, CSS, JavaScript
Tools & Platforms	Git, GitHub, Vercel, Render, Postman, Figma
Frameworks & Libraries	React JS, Node JS, Express JS, MongoDB, Tailwind CSS, SCSS

WORK EXPERIENCE

OctaNet Services Pvt Ltd <i>Web Developer Intern</i>	October 2023 – November 2023 <i>Remote</i>
<ul style="list-style-type: none">Leveraging HTML, CSS, JavaScript, and React JS, I created an efficient admin dashboard and a visually appealing product page. I incorporated a responsive design to ensure optimal device functionality, providing a seamless user experience.During this journey, I have explored the complexities of React.js and gained proficiency in building dynamic and efficient user interfaces. I have also applied my knowledge to streamline the development process, improve code maintainability, and enhance overall project scalability.	

PROJECTS

StudyNotion	February 2024
<ul style="list-style-type: none">I have developed an Edtech platform using React JS, Node JS, MongoDB, and Express JS. These technologies allowed me to create dynamic user interfaces and manage data efficiently.Implemented user authentication, course management, and payment integration functionalities, ensuring secure and streamlined interactions.Utilized RESTful API design principles, JSON data exchange, and standard HTTP methods to facilitate smooth communication between front-end and back-end systems.I prioritized a secure and reliable monolithic backend architecture with Node JS, Express JS, and MongoDB for flexible and scalable data storage.	
Buy Me a Tea	December 2023
<ul style="list-style-type: none">Developed a web application named Buy Me a Tea using React JS and Tailwind CSS, catering to creators and content providers who wish to receive support from their audience similar to platforms like Buymeacoffee.Implemented payment gateway integration utilizing Razorpay for seamless transactions, ensuring a secure and efficient payment process for users wishing to contribute or donate.Leveraged modern web technologies including React JS, Tailwind CSS, and Razorpay API to create an intuitive and user-friendly platform that facilitates monetary support from patrons to content creators, enhancing the overall user experience.	
Car Rental	November 2023
<ul style="list-style-type: none">Spearheaded the development of a production-level car rental platform, emphasizing scalability, reliability, and high performance.Engineered robust features for efficient search, comprehensive car comparisons, and seamless reservation processes, optimizing user experience and satisfaction.Utilized React and SCSS to craft a sophisticated, modern, and responsive user interface, ensuring a seamless and visually appealing experience across diverse devices and platforms.	
E-Shop	October 2023
<ul style="list-style-type: none">I developed a dynamic web application called 'Electronic Shop' which features a modern interface and robust functionality.Implemented essential features including a dynamic carousel for product display, seamless toggling between dark and light themes for user preference, incorporated animations to enhance user experience, and ensured responsiveness across various devices.Leveraged React JS for efficient front-end development and Tailwind CSS for streamlined styling and design implementation, ensuring a smooth and visually appealing user interface.	

EDUCATION

Gandhi Institute of Technology And Management (GITAM) <i>Bachelor of Technology : Electrical and Electronics Engineering — CGPA: 7.55/10</i>	November 2022 <i>Bhubaneswar, Odisha</i>
